Report description:

Cooking ingredients and meals in Spain continues to see strong growth in current value terms in 2023, albeit at a slightly slower rate than in 2022 due to lower inflation. However, the category has seen a return to growth in retail volume terms supported by more stable prices and the end of the pandemic. The demand for convenient solutions like meals and soups is on the rise, driven by the preference for easy and quick options as consumers resume their busy lifestyles. Price increases have also...

Euromonitor International's Cooking Ingredients and Meals in Spain report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
