Report description:

In 2023, the global supply chain of edible oil raw materials has faced significant disruptions due to climate change and geopolitical complexities, impacting availability in South Korea. The country's reliance on external sources has made it vulnerable to global forces, substantially increasing the average unit price of edible oils for a second consecutive year. Despite these price hikes, the essential nature of edible oils in daily cooking practices has had a limited impact on retail demand, wi...

Euromonitor International's Edible Oils in South Korea report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
