### **Report description:**

2023 saw edible oils register steady and stable volume growth as population growth underpinned rising demand, with olive oil recording a particularly positive performance as consumers became more interested in the health and wellness properties of these products. However, in the dominant edible oils category of sunflower oil, demand increased only moderately as pressure on high inflation meant pressure on household spending despite the positive impact that the shift towards at-home consumption h...

Euromonitor International's Edible Oils in Turkey report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
