Report description:

Edible oils continues to face challenges caused by shortages of raw materials and supply chain disruptions, along with climatic impacts. As such and added to inflationary pressures, this is pushing up prices and supporting value sales, while retail volume is more compromised due to the same inflationary pressures. Here we also note the majority of edible oil in Vietnam is imported from other countries, so exchange rate factors also play a part in the challenging context. Examples regarding suppl...

Euromonitor International's Edible Oils in Vietnam report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere.
