Report description:

Meals and soups continues to be impacted by rising prices in 2023 as inflation remains high, resulting in double-digit current value growth. Since 2022, increases in the cost of raw materials, shipping costs, labour wages and energy have led to substantial price increases in all cooking ingredients and meals categories. However, product supply on retail shelves has stabilised in 2023 amid fewer shortages. Rising consumption of dried soups is also driving overall retail volume sales, as one of th...
