Report description:

Organic food is popular among Danish consumers, with it being seen to embody a blend of quality, health, and environmental responsibility. They typically often associate organic products with fewer pesticides, better nutritional value, and a lower environmental impact. The preference for organic food also reflects a broader societal shift towards sustainability and health-conscious choices in Denmark. Through choosing organic products, consumers are able to align their purchasing habits with the...

Euromonitor International's Processed Fruit and Vegetables in Denmark report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
