Report description:

The relentless surge in prices has significantly impacted processed fruit and vegetables, resulting in a notable slowdown in retail volume growth across the categories, with consumers shifting towards fresh produce in search of better prices. The lack of pandemic restrictions has also resulted in local consumers shopping for fresh fruit and vegetables again, leading to a decline in demand for processed variants. However, the foodservice sector has experienced a positive uptick due to rising tour...

Euromonitor International's Processed Fruit and Vegetables in Dominican Republic report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
