Report description:

Shelf stable vegetables is the largest category within processed fruit and vegetables in France, but sales have continued to decline in 2023. This is partly due to price increases on most products as manufacturers have faced up to rising production costs. This has, however, supported healthy growth in current value terms. Sales of shelf stable vegetables saw dynamic growth in retail volume terms in 2020 in response to the outbreak of COVID-19 with these products becoming a must-buy item for incr...

Euromonitor International's Processed Fruit and Vegetables in France report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
