### **Report description:**

Processed fruit and vegetables in Japan is set to see a notable decline in retail volume terms in 2023, while retail current value sales are set to maintain solid growth due to rising unit prices. The decline in volume terms is mainly due to a rebound after a surge in demand for consumption at home and stockpiling in 2020 during the pandemic. In 2020, consumption occasions rapidly pivoted towards the home, as many employees switched to remote working and children did not go to school. This led t...

Euromonitor International's Processed Fruit and Vegetables in Japan report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
