Report description:

Pasta registered positive retail volume growth in 2023 as sales rebounded from the double-digit declines recorded in the category over the course of 2022. However, it should be noted that demand for pasta fell at a slower rate than in most other categories of cooking staples and this is a reflection of pasta's status as a key category of staple foods and one of the cornerstones of the typical Ukrainian diet. Thus, the reputation that pasta has for being a cheap, convenient and filling source of...
