Report description:

In line with the waning impact of the pandemic in Chile as the country eased its restrictions, consumers were optimistic that the economic situation would improve significantly. However, this was quickly followed by Russia's invasion of Ukraine, which continues to have a significant economic impact in terms of production costs, supply chains and the purchasing power of Chilean consumers. It is a fact that the increasing number of social gatherings has benefited certain categories within staple f...

Euromonitor International's Staple Foods in Chile report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
