Report description:

Store cards are registering further decline in terms of both the number and value of transactions in 2023 as they are perceived to be old-fashioned, plus other financial card types and instruments offer greater flexibility. In contrast to credit cards, debit cards and mobile apps such as Swish, which can be used almost anywhere, it is only possible to use store cards in certain retail chains or stores, which limits their usage and appeal.

Euromonitor International's Store Card Transactions in Sweden report establishes the size and structure of the market for ATMs cards, smart cards, credit cards, debit cards, charge cards, pre-paid cards and store cards. It looks at key players in the market (issuers and operators), number of cards in circulation, numbers transactions and value of transactions. It offers strategic analysis of sector forecasts and trends to watch.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
