- Team License \$1500.00
- Enterprisewide \$2900.00

### **Report description:**

#### REPORT OVERVIEW

This report provides an in-depth analysis of the complete US medical over-boots market. Exhaustive information regarding the usage of advanced medical over-boots in the US healthcare settings.

Medical over boots are in high demand, especially post-COVID-19 pandemic. Stringent regulations are imposed to maintain the sterility of surgical rooms, the safety of surgeons, and more. There is a constant increase in number of surgeries performed across the countries. This is increasing the number of medical over boots used in the market.

#### MARKET DEFINITION

Medical over boots are also called medical protective shoe covers. These are mainly used to protect feet, legs, and other parts from medical, epidemic prevention, and infectious disease control personnel from infectious organisms and pollutants. Forensic labs and clean rooms also use this to reduce the spread of foreign particles.

#### KEY HIGHLIGHTS:

- The cost of medical PPE products, including boots cover, in the US is comparatively higher than in other countries. The US pays a high amount to receive high-quality medical PPE for its population.
- Increasing ambulatory surgical centers, the number of surgeries, and the target population in the US is driving the market faster.

The demand for medical over boots is also increasing gradually.

-□ Vendors in the market have launched various advanced products in the market. This includes anti-slippery medical boots, breathable medical boots, and more. Advanced products with better features are in high demand.

-□ Boot cover made of polypropylene is used by medical staff and nurses for protection for floors, laboratories, carpets, and tiles against dirt and grime, as well as in maintenance/cleaning, pharmaceutical, and other medical applications like forensics, preserving samples in a clean room.

-□ Post COVID-19 pandemic, the adoption of telehealth consultation increased, and the number of consultation visits decreased in certain specialties. This reduced the usage of medical PPE Kits, including medical overboots, in healthcare settings.

-□ Forensic labs handle large volumes of samples, to prevent cross-contamination, PPE kits are used by the analyst. They are also one of the major consumers of medical overboots.

## VENDORS

### Key Vendors

- Ansell
- Kimberly-Clark
- 3M
- Honeywell

### Other Prominent Vendors

- Alphaprotech
- Berner
- Duka
- Dupont
- Dynarex
- Ekomed
- Hepro
- Kishkindha
- Medicom
- Medline
- MEDZONHEALTH
- Neomedic
- Riverside Holdings

## REPORT HIGHLIGHTS

## SEGMENTATION & FORECAST

- Material
  - ? Polypropylene
  - ? Polyethylene
- End-User
  - ? Hospitals
  - ? Diagnostic Labs
  - ? Others
- Feature
  - ? Skid-Resistant
  - ? Anti-Skid resistant

## MARKET STRUCTURE

- Market Dynamics
- Competitive Landscape
- Key Vendors
- Other Prominent Vendors
- Strategic Recommendations
