Report description:

The global plumbing fixtures market size reached US\$ 84.5 Billion in 2022. Looking forward, IMARC Group expects the market to reach US\$ 114.2 Billion by 2028, exhibiting a growth rate (CAGR) of 5.15% during 2022-2028.

Plumbing fixtures are exchangeable devices attached to a system of pipes that carry water throughout a building. They are made using smooth, non-corrosive, non-absorbent, and anti-microbial materials and promote easy cleaning. They are installed in the drainage system of the kitchen, bathroom, washroom, and different parts of a commercial facility, houses, hospital, school, and other buildings. Some of the most commonly available plumbing fixtures are sinks, toilets, urinals, faucets, showers, bathtubs, water closets, washbasins, and flushing cisterns. Nowadays, modern bathrooms are made from fiberglass, acrylic, enamel, cast iron, steel, and opulent waterproof wood and equipped with overflows, drains, and taps that assist in delivering and draining water.

Plumbing Fixtures Market Trends:

The escalating demand for luxury homes and rising renovation of buildings on account of rapid urbanization and improving income levels represents one of the key factors impelling the market growth. Moreover, governing agencies of various countries are investing in infrastructure development, which is contributing to market growth. Apart from this, non-residential buildings, such as hotels, gyms, and spa resorts, use bathtubs, showers, and other plumbing fixtures to improve customer satisfaction. This, along with the rising focus on health and wellness among individuals, is further stimulating the growth of the market. Moreover, the rising demand for medical treatment and physical medicine is positively influencing the adoption of plumbing fixtures in hospital
