

Urology Devices Market by Product (Dialysis, Laser, Lithotripsy, Robotic, Insufflators, Guidewires, Catheters, Stents, Implants), Application (Kidney Diseases, Cancer, Pelvic Organ Prolapse, BPH, Stones), End User, and Region - Global Forecast to 2028

Market Report | 2023-11-29 | 268 pages | MarketsandMarkets

AVAILABLE LICENSES:

- Single User \$4950.00
- Multi User \$6650.00
- Corporate License \$8150.00
- Enterprise Site License \$10000.00

Report description:

The urology devices market is valued at an estimated USD 34.1 billion in 2023 and is projected to reach USD 48.6 billion by 2028, at a CAGR of 7.3% during the forecast period. Increase in the incidence of chronic diseases like diabetes and blood pressure has led to the increase in prevalence of the urological and kidney conditions which require care and surgical interventions. Urgent and timely treatment is required to manage these patients. The overall increase in the number of minimally invasive procedures is leading to the increased adoption of urology devices in order to ensure the safe and success of the procedures. This is driving the overall growth of the market.

"Consumables & accessories segment accounted for the highest growth rate in the urology devices market, by product, during the forecast period."

The urology devices market is bifurcated into instruments and consumables & accessories on the basis of product. The instrument segment in the urology devices market is experiencing substantial growth, largely driven by the increasing incidence of diseases such as kidney diseases and cancers. Consumables & accessories segment is also growing due to the rising focus on R&D for the treatment of increasing incidence of chronic diseases.

"kidney diseases segment accounted for the highest growth rate in the urology devices market, by applications, during the forecast period."

The global urology devices market is bifurcated into kidney diseases, urological cancer, pelvic organ prolapse, benign prostatic hyperplasia, urinary incontinence, erectile dysfunction, urinary stones and other applications. The kidney diseases segment is currently witnessing the highest growth rate within the urology devices market. The rising geriatric population and rising incidence of chronic diseases affecting kidneys are the major factors driving this segment's growth.

"Dialysis centers segment accounted for the highest CAGR."

Scotts International. EU Vat number: PL 6772247784

tel. 0048 603 394 346 e-mail: support@scotts-international.com

www.scotts-international.com

Based on end users, the urology devices market is segmented into hospitals, ASCs, and clinics, dialysis centers and home care settings. In 2020, the dialysis centers segment accounted for the highest growth rate. This can be attributed to the increased demand for advanced dialysis products and facilities for ESRD treatment.

"Asia Pacific: The fastest-growing region urology devices market."

The global urology devices market is segmented into North America, Europe, Asia Pacific, Latin America, and the Middle East & Africa. The Asia Pacific region is projected to register the highest CAGR during the forecast period. Growth in this region is expected to be centered on China and Japan. Factors such as the rising geriatric population, increasing prevalence of diabetes, high burden of kidney diseases such as CKD, increasing healthcare spending, growing per capita income, rising demand for cutting-edge technologies, expansion of private-sector hospitals to rural areas in various APAC countries, and the presence of high-growth markets are driving the growth of the urology devices market in this region.

The break-up of the profile of primary participants in the urology devices market:

-□By Company Type: Tier 1 - 40%, Tier 2 - 30%, and Tier 3 - 30%

-□By Designation: C-level - 27%, D-level - 18%, and Others - 55%

-□By Region: North America - 51%, Europe - 21%, Asia Pacific - 18%, Latin America - 6%, and Middle East & Africa- 4%

The key players in urology devices market are Fresenius Medical Care AG & Co. KGaA (Germany), Baxter International, Inc. (US), Boston Scientific Corporation (US), Becton, Dickinson and Company (US), B. Braun Melsungen AG (Germany), Cardinal Health (US), Olympus Corporation (Japan), Intuitive Surgical (US), Coloplast A/S (Denmark), Stryker Corporation (US), Teleflex Incorporated (US), Convatec Group PLC (UK), Medtronic PLC (Ireland), Karl Storz (Germany), Cook Medical (US), Richard Wolf GmbH (Germany), CompactCath (US), Dornier MedTech (Germany), Nikkiso Co., Ltd. (Japan), Dialife SA (Switzerland), Erbe Vision (Germany), Well Lead Medical Co., Ltd. (China), ROCAMED (Germany), EndoMed Systems GmbH (Germany), Amniso International, Inc. (US), Medispec (US), Medical Technologies of Georgia (US), Vimex Sp. z o.o. (Poland), Balton Sp. z o.o. (Poland), Hunter Urology (UK), Ribbel International Ltd. (India).

Research Coverage:

This research report categorizes the urology devices market by product (instruments and consumables & accessories), application (kidney diseases, urological cancer, pelvic organ prolapse, benign prostatic hyperplasia, urinary incontinence, erectile dysfunction, urinary stones and other applications), end user (hospitals, ASCS & clinics, dialysis centers and home care settings), and region (North America, Europe, Asia Pacific, Latin America, and the Middle East & Africa). The scope of the report covers detailed information regarding the major factors, such as drivers, restraints, opportunities and challenges, influencing the growth of the urology devices market. A detailed analysis of the key industry players has been done to provide insights into their business overview, solutions and services, key strategies, acquisitions, and agreements. New product launches and recent developments associated with the urology devices market. Competitive analysis of upcoming startups in the urology devices market ecosystem is covered in this report.

Reasons to buy this report:

The report will help the market leaders/new entrants in this market with information on the closest approximations of the revenue numbers for the overall urology devices market and the subsegments. This report will help stakeholders understand the competitive landscape and gain more insights to position their businesses better and plan suitable go-to-market strategies. The report also helps stakeholders understand the pulse of the market and provides them with information on key market drivers, restraints, opportunities and challenges.

The report provides insights on the following pointers:

-□Analysis of key drivers (Rising incidence of urological diseases, growing preference for minimally invasive procedures, rising focus on R&D and product launches, growing number of hospitals and surgical centers), restraints (high degree of consolidation among key players), opportunities (potential growth opportunities in emerging economies, technological advancements) and challenges (increasing number of product recalls by key players, shortage of skilled urologists) influencing the growth of the urology devices market.

-□Product Development/Innovation: Detailed insights on upcoming technologies, research & development activities, and new product launches in the urology devices market.

- Market Development: Comprehensive information about lucrative markets - the report analyses the urology devices market across varied regions.
- Market Diversification: Exhaustive information about new products, untapped geographies, recent developments, and investments in the urology devices market
- Competitive Assessment: In-depth assessment of market shares, growth strategies, and service offerings of leading players like Fresenius Medical Care AG & Co. KGaA (Germany), Baxter International, Inc. (US), Boston Scientific Corporation (US), Becton, Dickinson and Company (US), B. Braun Melsungen AG (Germany), among others in the urology devices market strategies.
