Report description:

The overall landscape of apparel accessories in Morocco experienced a moderate decline in 2023, largely attributed to the sharp decrease in face mask sales. The return to pre-pandemic routines, marked by the complete lifting of restrictions in 2022, led to a gradual reduction in mask-wearing as schools and workplaces ceased mandatory mask policies. Consequently, many stores refrained from displaying fabric face masks due to dwindling demand amid the absence of compulsory mask requirements.
