Report description:

Bottled water benefitted from increasing demand for convenience in 2022. A large proportion of purchases of still bottled water are made on impulse by consumers seeking to quench their thirst while on the go. Thus, this category saw strong growth as people resumed their pre-pandemic lifestyles and spent more time outside of their homes. However, this pattern has stalled in 2023 with economic pressures taking their toll on consumer incomes. The tap water in Norway is not only safe to drink but it...
