Report description:

In 2023 Argentina is suffering from political dysfunction and soaring inflation, with consumers seeing historically low average income and diminished purchasing power. A severe drought and the upcoming presidential election are further complicating economic forecasts. The government's protectionist "Precios Justos" programme is controlling prices and partially blocking imports, affecting the availability of raw materials and imported products. Despite these challenges, hot drinks is rising in bo...

Euromonitor International's Hot Drinks in Argentina report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth.
