Report description:

Despite the energy crisis and rising inflation, pasta is witnessing robust volume and current value growth in 2023. Pasta is a relatively cheap staple food that is used to make a variety of dishes and with the cost of living crisis still in play, demand is rising further. Indeed, pasta is consumed in the majority of Greek households. Rising prices have not impeded pasta consumption, although some consumers are switching to more affordable private label options. Some private label pasta products...
