### **Report description:**

Health and exercise became even more important during the pandemic, with many local consumers believing it to be key for good mental health. Norwegians, who were already very outdoorsy, increased the frequency with which they undertook activities such as hiking, running, and skiing. As a result, sportswear performed well years in 2020 and 2021. Growth in 2022 was more in line with other apparel categories. In 2023, growth in the category slowed due to rising maturity, and current value growth wa...

Euromonitor International's Sportswear in Norway report offers a comprehensive guide to the size and shape of the market at a national level.
