### **Report description:**

In 2023, the Kenyan staple foods market is navigating through a period of high food inflation, leading to significant increases in unit prices. This economic environment has prompted consumers to prioritise essential grocery items while curtailing impulse buys and non-essential purchases. The country's prolonged drought has exacerbated this situation, contributing further to the escalating food prices. Bread, a fundamental staple, has experienced notable unit price increases, primarily due to th...

Euromonitor International's Staple Foods in Kenya report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2027, clearly indicating how the market is expected to change.
