### **Report description:**

Staple foods in Latvia in 2023 is enjoying a period of modest recovery, following the significant price inflation of 2022. Although some growth has been observed, it is primarily a rebound from the previous year's downturn. The industry overall remains stagnant, with the price inflation crisis of 2022 giving way to concerns related to rising interest rates, continuing to influence consumer purchasing decisions negatively.

Euromonitor International's Staple Foods in Latvia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2027, clearly indicating how the market is expected to change.
