Report description:

Argentina grappled with an economic downturn in 2023, largely triggered by the worst harvest in over a decade due to a historic drought spanning 2022-2023. The agricultural sector, a linchpin of the local economy and accounting for over half of exports as of 2022, suffered immensely due to feeble crop production.

Euromonitor International's Consumer Appliances in Argentina report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, format trends or distribution issues. Forecasts to 2027 illustrate how the market is set to change.
