### **Report description:**

Similar to the pattern seen in 2022, inflationary pressures and reduced purchasing power continued to take their toll on the performance of consumer appliances in Spain in 2023. Another aspect that contributed to the negative evolution of consumer appliances in 2023 was the contraction of the housing market in the country, which was accompanied by a decline in home renovations in Spain. As a result, sales recorded a decline in retail volume terms across most categories in 2023, with only a few e...
