### **Report description:**

While hot drinks in the Netherlands is poised to record solid growth in current value terms in 2023, this is mainly because unit prices have continued to rise sharply due to the spike in inflation fuelled by the global recovery from COVID-19, the fallout of Russia's invasion of Ukraine and other factors. Overall retail volume sales have declined for a third consecutive year, with the three main categories all set to post negative results in this regard. Aside from heightened budget-consciousness...
