Report description:

Report Overview

This report examines the European market for thermal insulation products and their different uses in building and in industry, as well as identifying key trends impacting the industry.

It builds up from previous data held in-house by IAL Consultants. All data has been reviewed and updated for this new edition.

Scope of Study

IAL Consultants' report on the European Market for Thermal Insulation Products is comprised of 'Country' and 'Market' volumes. This report is a Market Volume report.

Country volumes focus on identifying the demand for common thermal insulation materials used in a given country/region.

Market volumes focus on identifying the demand for a given insulation material in Europe in a country-by-country analysis.

Country and Market Volumes are available as follows:

Country Volumes

Country Volumes cover the following products:

Glass wool, stone wool, expanded polystyrene (EPS - grey and white), extruded polystyrene (XPS), polyurethane/polyisocyanurate (PUR and PIR) foam, phenolic foam, flexible insulation materials (expanded nitrile rubber (ENR) and polyethylene (PE)), renewable insulation materials (e.g., wool, flax/hemp, cellulose, wood fibre), and vacuum insulation panels (VIPs)/aerogel.

The following countries are included in the country volumes:

Austria, Baltics (Estonia, Latvia and Lithuania), Belgium, Bulgaria, Croatia, Czech Republic, Denmark, Finland, France, Germany, Hungary, Ireland, Italy, Netherlands, Norway, Poland, Portugal, Romania, Russia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey, UK.

Market Volumes

Market Volumes cover the following products: mineral fibre (glass and stone wool), expanded polystyrene (grey and white), extruded polystyrene, and polyurethane/polyisocyanurate foam.

Market Volumes provide data for the countries/regions listed above.
