### **Report description:**

Overall demand for vegetables in Japan continues to increase in 2023, mainly driven by the more impressive performance by foodservice. Like many other categories of fresh food, foodservice sales of vegetables in Japan suffered significant declines at the height of the pandemic in 2020. This was particularly noticeable during the early stage of the pandemic, when the first state of emergency was announced nationwide, forcing foodservice establishments to shorten their working hours and limit the...

Euromonitor International's Vegetables in Japan report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data in volume terms 2018-2022, allowing you to identify the sectors driving growth.
