implant care and maintenance solutions to support the treatment of peri-implantitis. In October 2022, Geistlich, specialized in the regeneration of bone, cartilage, and tissue, acquired Lynch Biologics, US. The acquisition helped Geistlich Pharma to strengthen its portfolio by adding Lynch Biologics, LLC's leading GEM 21S product to it. GEM 21S is based on a growth factor that accelerates bone formation and wound healing. The companies further aim to innovate regenerative technologies in dentistry. In December 2022, Neoss Group, which designs, manufactures, and sells dental implant treatment products, opened a new sales office in the Nordic region. The facility commenced operations in the Nordic region on December 01, 2022, to support dental professionals and their patients. In January 2021, Dentsply Sirona acquired Datum Dental, a leading provider of innovative OSSIX regenerative solutions. The acquisition enabled Dentsply Sirona to acquire the strong OSSIX biomaterial portfolio of Datum Dental, Ltd. It also offered it access to the patented GLYMATRIX technology of Datum Dental Ltd. GLYMATRIX mimics the natural collagen cycle in the body, i.e., a biochemical process called glycation. GLYMATRIX forms the basis of OSSIX products for guided bone regeneration, as well as guided tissue regeneration.

## South & Central America Dental Bone Graft Substitute and Barrier Membrane Market Overview

The South & Central America market is segmented into Brazil, Argentina, and the Rest of South & Central America. The market in this region has immense potential for growth owing to factors such as increasing cases of dental diseases, growing dental tourism, and the presence of major market players.

## South & Central America Dental Bone Graft Substitute and Barrier Membrane Market Revenue and Forecast to 2030 (US\$ Million)

## South & Central America Dental Bone Graft Substitute and Barrier Membrane Market Segmentation

The South & Central America dental bone graft substitute and barrier membrane market is segmented into product, procedures, end user and country.

Based on product, the South & Central America dental bone graft substitute and barrier membrane market is bifurcated into dental bone graft substitutes and dental barrier membranes. The dental bone graft substitutes segment held a larger share of the South & Central America dental bone graft substitute and barrier membrane market in 2022.

Based on procedures, the South & Central America dental bone graft substitute and barrier membrane market is segmented into guided bone regeneration (GBR) procedures, guided tissue regeneration (GTR) procedures, sinus-lift and ridge-split procedures, alveolar ridge preservation (ARP), block-graft procedures, periodontal regeneration procedures, socket preservation, and others. The sinus-lift and ridge-split segment held the largest share of the South & Central America dental bone graft substitute and barrier membrane market in 2022.

Based on end user, the South & Central America dental bone graft substitute and barrier membrane market is segmented into hospitals, dental clinics, and others. The dental clinics segment held the largest share of the South & Central America dental bone graft substitute and barrier membrane market in 2022.

Based on country, the South & Central America dental bone graft substitute and barrier membrane market is segmented into Brazil, Argentina and the Rest of South and Central America. The Rest of South and Central America dominated the South & Central America dental bone graft substitute and barrier membrane market in 2022.
