Report description:

After a 2022 marked by a drop in consumption in retail volume terms, the pulses category returned to growth in Italy during 2023. This positive signal involved both the production and consumption of pulses in the country. On the production side, there has been an increase in the cultivation of pulses by Italian farmers. Thanks to government policies aimed at incentivising sustainable agriculture, more and more farmers have opted to produce pulses, attracted both by their profitability and the ec...

Euromonitor International's Pulses in Italy report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data in volume terms 2019-2023, allowing you to identify the sectors driving growth.
