Report description:

Cameroon was not as affected by the energy crisis stemming from the war in Ukraine as many other countries. Rising global energy prices in 2022 gave a boost to government coffers and helped stabilise the economy. However, ongoing civil conflict, as well as widespread poverty, restrains growth somewhat and this continues into 2023. With this background, soft drinks is expected to register a moderate increase in volume sales, partly supported by a continuing growing population.

Euromonitor International's Soft Drinks in Cameroon report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2019-2023), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they legislative, distribution, packaging or pricing issues. Forecasts to 2028 illustrate how the market is set to change.
