Report description:

Sales in food preparation appliances see healthy volume growth in 2023, continuing the trend seen since the era of the pandemic, when consumers were spending more time cooking at home and trying out new recipes. Indeed, food preparation appliances offer convenience and time-saving attributes in this context, along with being smaller-ticket items compared to large appliances, thus being more affordable for consumers. Additionally, whereas with large appliances are only replaced or upgraded occasi...

Euromonitor International's Food Preparation Appliances in Turkey report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth.
