### **Report description:**

Nuts saw strong growth in current retail value terms in 2023 although this was primarily due to the ongoing impact of inflation. Nonetheless, the category also saw a return to growth in retail volume terms after recording declines in the previous two years. Meanwhile, foodservice sales not only rebounded from the pandemic-related setbacks but also surpassed the levels seen in 2019 in volume terms, with this being largely thanks to the revival of domestic and inbound tourism.
