Report description:

Demand for personal care appliances declined for the second year in a row in Austria in 2023. High inflation remained, and the cost of living rose sharply due to the energy crisis triggered by Russia's invasion of Ukraine. As such, the landscape was negatively impacted by rising price sensitivity, which prompted consumers to continue using older equipment and postpone new purchases. Additionally, there was a noted shift from spending on goods to experiences, with consumers favouring spending on...

Euromonitor International's Personal Care Appliances in Austria report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth.
