#### Market Definition

The all-encompassing IT solutions that serve as the foundation for banking operations are referred to as core banking solutions, or CBS. These technologies allow banks to easily provide a wide range of services by centralizing and streamlining numerous financial operations. For banks to run smoothly, deliver a comprehensive range of services, and give their clients a flawless banking experience, CBS is essential. Typically, these solutions are offered by specialized IT companies that focus on the banking and finance sector. Strong security features are incorporated into these products to safeguard consumer information and transactions. They also guarantee adherence to rules and regulations set forth by authorities overseeing the banking industry.
