Steel Global Industry Guide 2018-2027

Summary

Global Steel industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value and volume , and forecast to 2027). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- The steel market consists of the production of crude steel in the stated country or region.
- Crude steel production refers to the production of the first solid steel products upon solidification of liquid steel. It includes ingots (in conventional mills) and semis (in modern mills with continuous casting facilities). Crude steel also includes liquid steel, which goes into the production of steel castings.
- The market value represents the production value.
- All market data and forecasts are represented in nominal terms (i.e., without adjustment for inflation) and all currency conversions used in the creation of this report have been calculated using constant 2022 annual average exchange rates.
- Asia-Pacific captured the largest share of the global steel market, accounting for a share of 74.6% in 2022.
- The global steel market had total revenues of \$1,566.8 billion in 2022, representing a compound annual growth rate (CAGR) of 9.6% between 2017 and 2022.
- Market production volume increased with a CAGR of 1.8% between 2017 and 2022, to reach a total of 1,810,631.0 thousand tonnes in 2022.
