### **Report description:**

The revenge travel trend has continued in 2023, due to the broader reopening of Hong Kong after the pandemic, which has allowed consumers to travel abroad, with Japan emerging as a key destination. This has resulted in a significant reduction in the amount of time Hong Kong consumers spend in their home country, as well as a decline in home consumption occasions. This shift can also be attributed to the lifting of COVID-19 restrictions and the return to office working.
