## Report description:

Traditional watches in the US witnessed a swift rebound in sales in 2021, surpassing initial expectations, driven predominantly by the surge in demand for high watches (over USD1,000). However, the momentum has since seen a notable deceleration across all categories both in current value and volume terms. This can be attributed to the persistent escalation of inflation, and ongoing economic uncertainties, which have lingered since 2022. Despite a lower inflation rate in 2023 compared with 2022,...
