Report description:

Chocolate confectionery packaging, which dominates demand for confectionery packaging in the Netherlands in retail unit volume share terms, continued to record a positive performance in 2022. This was due to factors such as chocolate being a beloved treat in the country, with the Dutch having a strong affinity for high-quality chocolate products. This ongoing strong demand prompted confectionery manufacturers to introduce a variety of chocolate confectionery products and flavours, which, in turn...

Euromonitor International's Confectionery Packaging in Netherlands report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
