Report description:

Metal food cans remained the most popular packaging type for processed fruits and vegetables in 2022, driven by their strength in the largest retail unit volume category of shelf stable fruits and vegetables. Nevertheless, the use of glass jars in the latter remained higher than pre-pandemic levels, with this pack type often favoured by premium brands.

Euromonitor International's Processed Fruit and Vegetables Packaging in Romania report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Product coverage: Frozen Processed Fruit and Vegetables, Shelf Stable Fruit and Vegetables.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Processed Fruit and Vegetables Packaging market;
- * Pinpoint growth sectors and identify factors driving change;
- * Understand the competitive environment, the market's major players and leading brands;
