- Multiple User License (Global) €2475.00

### **Report description:**

Glass jars remained the dominant pack type in sweet spreads packaging in 2022. Glass provides excellent protection from the effects of the outside environment, including sunlight, ensuring the product remains unaffected and prolonging its shelf life. In addition, since glass is transparent, it allows consumers to inspect the contents of the package, which is particularly relevant for categories such as honey and jams and preserves, where freshness is of utmost importance.

Euromonitor International's Sweet Spreads Packaging in Saudi Arabia report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Product coverage: Chocolate Spreads, Honey, Jams and Preserves, Nut and Seed Based Spreads, Yeast-based Spreads.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- \* Get a detailed picture of the Sweet Spreads Packaging market;
- \* Pinpoint growth sectors and identify factors driving change;
- \* Understand the competitive environment, the market's major players and leading brands;
