Report description:

While inflation remained high in 2023, government measures aimed at protecting the hospitality sector benefitted consumer foodservice. In particular, the reduced 10% VAT rate (from a previous 20%), which was introduced during the pandemic, was made permanent. As such, consumer foodservice registered healthy double-digit constant value growth. However, growth was more muted in terms of outlet openings.

Euromonitor International's Consumer Foodservice in Slovakia report offers a comprehensive guide to the size and shape of the market at a national level. It provides foodservice sales, the number of outlets and the number of transactions by sector, allowing you to identify the foodservice sectors driving growth.
