Report description:

Despite optimistic expectations of rapid recovery in consumer consumption following the COVID-19 pandemic, transaction growth in overall consumer foodservice in South Korea experienced a slowdown in 2023, exacerbated by prolonged inflation. The current circumstances of consumer foodservice in South Korea are not solely a result of a superficial increases in prices, but deeply rooted in the cascading effects of inflation on input costs, compounded by operational challenges faced by both chained a...

Euromonitor International's Consumer Foodservice in South Korea report offers a comprehensive guide to the size and shape of the market at a national level. It provides foodservice sales, the number of outlets and the number of transactions by sector, allowing you to identify the foodservice sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they eating habits, lifestyle changes, tourism spending or legislative issues.
