Report description:

Austria experienced exceptionally high inflation once again in 2023, reducing household incomes and dampening spending in almost all areas of consumer foodservice. Foodservice operators faced increased energy, materials and labour costs, which were partially passed on to the consumer. However, post-COVID-19, Austrians were keen to enjoy the benefits of the full lifting of pandemic restrictions. In addition, consumer sentiment generally improved towards the end of the year as a result of increase...

Euromonitor International's Self-Service Cafeterias in Austria report offers a comprehensive guide to the size and shape of the market at a national level. It provides foodservice sales, the number of outlets and the number of transactions by sector, allowing you to identify the foodservice sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they eating habits, lifestyle changes, tourism spending or legislative issues. Forecasts to 2028 illustrate how the market is set to change.
