Report description:

Street stalls/kiosks both benefited and suffered from the effects of the COVID-19 pandemic. They benefited as they are typically used for takeaways; therefore, they were deemed less of a risk than indoor premises in terms of catching or spreading the virus. However, as street stalls/kiosks are often used for late night snacking, restrictions on nightlife and people avoiding going out reduced opportunities for snacking on the way home from a bar.

Euromonitor International's Street Stalls/Kiosks in Finland report offers a comprehensive guide to the size and shape of the market at a national level. It provides foodservice sales, the number of outlets and the number of transactions by sector, allowing you to identify the foodservice sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they eating habits, lifestyle changes, tourism spending or legislative issues. Forecasts to 2028 illustrate how the market is set to change.

Product coverage: Chained Street Stalls/Kiosks, Independent Street Stalls/Kiosks.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
