The India Modular Kitchen Market size is estimated at USD 4.56 billion in 2024, and is expected to reach USD 13.57 billion by 2029, growing at a CAGR of 24.36% during the forecast period (2024-2029).

Kitchens are gaining recognition in the home improvement category to augment both its functionality and decor. For homemakers and working professionals, restructuring and remodeling the kitchen with more attractive looks and features has become a trend. The significant share of the modular kitchen market is driven by a rising middle-class population and increasing partnerships between contractors and real estate project developers for designing modular kitchens. Rising nuclear families and a preference for small houses and space-saving ideas are driving the growth of the modular kitchen market.

Over the last few years, the kitchen market in India has witnessed an inclination towards modern designs and comfort. Among Indian consumers, the kitchen is no longer considered a separate unit but a regular space for socializing, relaxation, and imaginativeness. With consumers showcasing an inclination to experiment with design, textures, and adolescent color combinations, manufacturers have been set free to offer consumers world-class products. Consumers are progressively looking at premium plans and features such as magic corners and kitchen island concepts to add more luxury touch to the cooking space.
