Report description:

The UAE Ceramic Tiles Market reached USD 9.4 billion in the current year, and it is expected to witness a CAGR of 6.51% during the forecast period.

The UAE ceramic tiles market is projected to witness substantial growth over the forecast period, owing to significant growth in the medical and housing and construction industries. A significant increase in construction activities in the country is providing an impetus to the ceramic tiles market. The ceramics tile manufacturers in the United Arab Emirates use advanced technology and original designs. Thus, the tiles produced by these manufacturers are not only of high quality but also have artistic value. Large companies from around the world are willing to set up companies in the United Arab Emirates because of the demand for ceramic tiles in the country. RAK Ceramics is one of the leading companies in the United Arab Emirates, which specializes in ceramic tiles. In June 2019, the company launched Maximus porcelain mega slabs. Industrial development fuelled by huge investments made by the government plays a crucial role in the growth of the industry, as all industrial facilities need fit-for-purpose flooring.

UAE Ceramic Tiles Market Trends

Imports and Export of Ceramic Tiles to the Country

The demand for ceramic tiles in the United Arab Emirates and across the world is increasing year-on-year, with the consumption of millions of square meters per annum in the country, as new projects are announced every month. This tremendous growth of ceramic tiles is also attributed to the excellent advanced technological developments that have taken place in the flooring section and tile manufacturing process. The country is one of the major importers and exporters of ceramic tiles.
