Report description:

In keeping with the trend evident across the wider Czech foodservice market, full-service restaurants experienced a dramatic slowdown in current value sales and transactions in 2023 as soaring inflation continued to place upward pressure on menu prices and make people more cautious in their discretionary spending habits. Indeed, because these types of establishments are comparatively expensive, the category was worse affected than most by heightened budget-consciousness among consumers. Several...

Euromonitor International's Full-Service Restaurants in Czech Republic report offers a comprehensive guide to the size and shape of the market at a national level. It provides foodservice sales, the number of outlets and the number of transactions by sector, allowing you to identify the foodservice sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they eating habits, lifestyle changes, tourism spending or legislative issues. Forecasts to 2028 illustrate how the market is set to change.
