Report description:

Home care in the Netherlands rose in value terms but declined in volume terms in 2023. Inflationary pressures and reduced disposable incomes led Dutch consumers to strive to save money on their weekly shopping, with home care products offering relatively straightforward ways of doing this. Consumers used less of certain products, and with others, simply stopped buying them altogether. In addition, as more consumers were actively seeking out better-value options, they responded well to retailers'...

Euromonitor International's Home Care in Netherlands market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2028 illustrate how the market is set to change.
