Report description:

Home insecticides witnessed a strong rebound in sales following a catastrophic season in 2022. Since home insecticides are mainly a seasonal, functional product, the main driver of volume sales each year is the size of the insect population. In 2023, the weather in Lithuania was far more suitable for insect breeding, triggering a surge in demand for home insecticides. Retail volume and current value sales surpassed the levels seen in 2021, due to the strong levels of demand. In 2022, there was a...

Euromonitor International's Home Insecticides in Lithuania market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth.
