Report description:

Continuing the positive performance seen over recent years, home insecticides saw retail volume and current value growth in 2023. Consumers continued to try and maintain high standards of sanitisation and cleanliness in their homes, including eradicating potentially disease-carrying insects. Moreover, with consumers spending more time socialising outdoors with family and friends, the purchasing of home insecticides became more relevant. Growth was driven primarily by the largest two categories,...

Euromonitor International's Home Insecticides in Mexico market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2028 illustrate how the market is set to change.
